How to Fill Out your Logbook

Our Dear Candidate,

The activities included in this Logbook summary and required to be documented and approved are: surgical Procedures, Scientific Activities, Training Courses, Rotation Schedule and the Research Abstract.

Filling out this Logbook:

All cells in each table should be filled out with the relevant data.

Surgical Procedures:

You need to document each procedure you participated in and the level of contribution, according to the following "Four Point Scale":

F1	Observer
F2	Assistant
F3	Operator with Senior
F4*	Operator with Junior

*In some training hospitals, trainees are not allowed to do major surgical operations independently. Therefore, in such case it could be accepted to consider F3 equals F4 (Adding number of procedures together)

By the end of the training program (Five years), operative report summary will be filled out by documenting the number of cases of each procedure according to each level of contribution in relation, referring to the training manual to know the number and level of contribution of procedures required.

Academic Activities:

You are required to participate in one scientific activity weekly. For every scientific activity, you will document the number of the sessions you attended during the training program, the event (Morbidity & Mortality Meeting – Case Presentation - Journal Club – Audit...etc.), the topic discussed in the session, your role in such an activity (Attendee, Presenter, Moderator...) and the name and signature of the trainer. Conferences which you attended and participated in, are documented in this session.

Training Courses:

You should document the courses you attended as BLS, ATLS, Basic Surgical Skills, Basics of Laparoscopy, Research Methodology, Evidence Based Medicine, Presentation Skills, in addition to any other courses completed by the candidate.

Rotation Map:

You should document the General Surgery and other specialties' rotations during the training program. The documentation includes the specialty, the hospital where you have your rotation, start and end dates and the name and signature of your trainer.

Research Abstract:

In this section you will need to write down the abstract of your research in 250-350 words. The abstract should include the research title, background, methods, results and discussion and the conclusion, You have to publish your research in a scientific Journal or presented in a scientific conference of meeting (You must provide the document).

Remarks:

All pages of this Logbook Summary must be SIGNED by your TRAINER and COUNTER SIGNED by the SUPERVISOR.
